

# Thank you !

---

We would like to thank you for your purchase! We'd love to hear your feedback so feel free to send us an email at [support@satochip.io](mailto:support@satochip.io) to let us know how your experience went.

## Quick setup - BCH

Download the latest Electron Cash client available here:

<https://electroncash.org/>

Plug your card wallet in a card reader or via NFC and launch Electron Cash client.

For a quick start, follow these steps:

- Choose a name for your wallet file – Next
- “Standard wallet” – Next
- “Use a hardware device” – Next

Follow the Electron Cash wizard and insert your desired personal PIN code to secure the card (*up to 16 chars*).

Insert your seed or generate a brand new one. Take care to backup the seed in a safe place. With the PIN code, these are the only information needed to recover your wallet.

Congratulations! Take a break and chill. You have now a fully functional and highly secured Satochip Bitcoin Cash hardware wallet.
